

## WHY THE BEAR HAS A SHORT TAIL

Have you ever seen a bear at the zoo? Did you see how short his tail was? I will tell you why the bear has a short tail.

One very cold day in winter, a fox saw some men. The men were taking home a lot of fish. The fox jumped on their wagon. He threw off some of the best fish until he had enough for his dinner. Then the fox jumped from the wagon and began to eat the fish. While he was eating, a bear came along.

"Good morning," said the bear, "those are very fine fish. How did you catch<sup>1</sup> them?"

"Yes, they are very good," said the fox. "If you go fishing with me tonight, I will show you how to catch fish."

"I'd love to come with you," said the bear. "I will bring my hook and line<sup>2</sup> too."

"You don't need a hook and line," said the fox. "I always catch fish with my tail. Your tail is much longer than mine, so you can catch fish even better."

At sunset<sup>3</sup> the bear met the fox. They went across the frozen river until they came to a small hole<sup>4</sup> in the ice.

"Now, Mr. Bear," said the fox, "sit down here on the ice and put your tail through the hole. You must sit still for a long time. That's the best way to catch fish. Wait until many fish take hold of<sup>5</sup> your tail. Then pull with all your might<sup>6</sup>."

The bear sat very still for a long time. At last he began to feel cold and he moved a little.

"Ow!" he cried. His tail had begun to freeze<sup>7</sup> in the ice.

"Isn't it time to pull out the fish?" said the bear.

"No, no," said the fox. "Wait until more fish have taken hold of your tail. You are very strong. You can wait a little longer."

So the poor bear waited until it was almost morning.

Just then some dogs began to bark<sup>8</sup> on the bank of the river.

The bear was so afraid that he jumped up quickly and pulled with all his might, but his tail was frozen fast in the ice. He pulled and pulled until the tail broke off.

The fox ran away laughing. Ever since then, bears' tails have been short.
