

## Activities 11 - Three Vocabulary Sudokus

This sudoku does not have the numbers 1 to 4. Instead, it contains words from four categories: **numbers**, **pets**, **people** and **objects**. Each line, column and block contains one word from each category.

Statt der Zahlen 1-4 enthält dieses Sudoku Wörter aus vier Kategorien: **Zahlen**, **Haustiere**, **Menschen** und **Gegenstände**. Jede Kategorie darf in jeder Zeile, Spalte und Viererpäckchen nur einmal vorkommen.

Example: In the red field, the correct choice is „door“. You already have *sister* (a person) and *rabbit* (a pet) in the same block. In the same line, you find the word *nine* (a number). So the missing word must be *door* (an object).

Beispiel: In dem roten Feld musst du „door“ auswählen. Im selben Päckchen stehen schon *sister* (Schwester – ein Mensch) und *rabbit* (Kaninchen – ein Haustier). In derselben Spalte steht mit „nine“ eine Zahl. Das heißt, für das rote Feld bleibt nur der Gegenstand (die Tür).

Tips: If you don't know a word, check the **glossary** on page 3. If you have trouble solving the puzzle, try marking the categories in different colors!

Tipps: Wenn du ein Wort nicht kennst, sieh im Glossar auf Seite 3 nach. Wenn du das Puzzle nicht lösen kannst, markiere die Kategorien in verschiedenen Farben!
